

We need you.

You'll work with other Infrastructure Engineers and Developers directly to review, improve and ultimately define the infrastructure. To be successful, good communication skills and wide knowledge in AWS infrastructure services, coupled with real-world experience will be required. You'll need to have a breadth of supporting technical skills such as knowledge of security best practices, Linux, configuration management, CI/CD pipelines, containerization, scripting, networking, and infrastructure as code. You don't need to be experts in all these areas but will need some proficiency in them.

The gross annual salary for this position ranges between €50.000 and €80.000, depending on qualifications and experience.

Your Tasks

- You and your team will define, implement and maintain the Infrastructure as Code (IaC) that supports all the applications and services behind kununu.com
- You advise and guide teams on new projects, helping them better understand risks and suggest mitigations
- You are responsible for fostering standards on infrastructure management and DevOps practices
- You build and expand provisioning tools to perform hands-off deployments of containerised applications

Your Skills

- You have received training or a degree in IT, software development or similar
- 5+ years of experience defining and maintaining AWS infrastructure (AWS Solutions Architect Professional certification is a plus)
- 5+ years of experience writing IaC using Terraform (either Hashicorp Infrastructure Automation Certifications are a plus)
- Well versed in Linux
- Solid understanding of GitHub Actions in driving infrastructure CI/CD

- Experience with Elasticsearch, MySQL, Redis, Memcached, DynamoDB, AW
- ECS is a plus
- Fluency in English is required.

Your Benefits

- Bring your dog to the office
- Up to 12 weeks Workation
- 6 week vacation
- Mobile devices also for private use
- Drinks, food & goodies
- Remote work option
- Trust-based working hours
- Communication on equal terms
- Transparent, competitive salary
- Board Q&A
